

# Introduction to PDCC IT Platform

Primary Dental Co-care Pilot Scheme for Adolescents  
Training Session on PDCC IT Platform

# What's eHealth?

Aims to build up free and **lifelong electronic health records** for all members of the public:

- Enable **two-way sharing** among public and private healthcare providers
- **Voluntary** participation, territory-wide and patient-oriented
- Participants' health records are stored in **encrypted** electronic format
- An information technology platform for implementing healthcare **public-private partnership programmes**

# Platform for All Subsidised Government Programmes

The screenshot displays the eHealth+ platform interface. At the top, a navigation bar includes a home icon, a logo, and tabs for Clinical, eHealth+, Administration, Emergency Access, Standards, and Information. The eHealth+ tab is selected, and a dropdown menu labeled 'eHealth Services' is visible, with a hand icon pointing to it. Below the navigation bar, the left sidebar contains 'Quick Links - Clinical' and 'Quick Links - Administration'. The main content area is titled 'eHealth Services' and features a 'Dentist' user profile. The services are organized into four categories: Administrative (Report Centre), Clinical (Health Profile), Participant (Participant Enrolment, Participant Management), and Payment & Charging (Submit Reimbursement).
